Portfolio

2020 - 2025

/ Emma Troni

As a Communication Design student at Politecnico di Milano, I'm specializing in creating compelling visual identities, branding, typography, publishing, motion graphics, and more, all while tackling real-world design projects.

My professional experience includes designing brand identities, promotional materials, and event setups, showcasing my ability to merge creativity with functionality. Beyond design, I'm driven by my love for photography, music, board game design, and environmental sustainability projects.

/ Personal Interests

Urban and travel photography
UI and UX Design
Data visualization
Board game design
Music and Dance

Creation of a unique brand image for a consulting firm based in Milan, specialized in organizational and managerial development for businesses across Italy. The color

palette reflects the company's core values of security, building positive relationships with clients, and trust. The design aims to communicate these principles

while positioning the company as a reliable partner for business growth and success.

/ Erberto Carboni

My project, developed within the university workshop, centers around creating a magazine dedicated to Erberto Carboni. This project consist in a monographic

magazine highlights his contributions to design, blending visually engaging layouts with thoughtful analysis of his work. It combines visual elements with con-

temporary editorial techniques, to delve into Erberto Carboni's vision across architecture and graphic advertising design.

/ SERES SRL

Development of the visual identity of a restoration company operating across Italy. I chose a color palette inspired by their logo, reflecting their core values such as

the passion they invest in their work and the blending of practical and theoretical knowledge to offer exceptional value to clients.

SERES SRL

Restauro di opere significa innanzitutto conservarla, sia da un punto di vista restaurativo che conservativo. Significa intervenire con la dovuta coerenza ed il massimo rispetto per l'opera, e costantemente aggiornarsi sui materiali e sulle tecniche. Significa avere informazioni ricavate da indagini scientifiche. Ci avviciniamo alla nostra professione attraverso la collaborazione con i chimici, archetti e storici dell'arte. Questa constante attenzione alla qualità ci consente di far fronte alle aspettative della committente individuando la migliore soluzione.
