Working experience

Seres srl

Feb 2026 - Present
Sept 2022 - Aug 2023

Freelance

Brand identity designer

- Full rebrand of a heritage-restoration firm: logo system, visual language, colour and type
- Authoring the brand manual and communication guidelines now being rolled out across all materials
- Designed exhibition stands for MADE Expo Milan 2023 and the Ferrara International Exhibition of Cultural Heritage 2023, developing visual concepts and branded materials

Vaglio&Partners

Sept 2024 - Feb 2025

Freelance

Brand identity & web designer

- Designed and built the corporate website end to end, from information architecture to production
- Created a modular template system that let a non-design team produce on-brand material without a designer
- Delivered the brand identity: logo, palette and print collateral

Favorite projects

[Explore projects](#)

Synchro

2026 | team of 5

- Speculative system exploring time as geopolitical infrastructure.
- Team leader of the technical pipeline: Arduino device (circuit, enclosure, firmware), Wi-Fi data transmission, live ranking and the web app reading it
 - Ran on-site usability testing with 87 participants and used the findings to redesign the confirmation flow
 - Contributed to the B2B brand identity and campaign posters

[Exhibited in Undeclared at dotdotdot, Milan \(July 2026\)](#)

Plastify

2025 | team of 4

- Interactive site for producer and DJ Plastica, with Asian Fake Records
- Team leader of UI/UX design and front-end build (Figma, Webflow, custom code)
 - Designed and developed the object-to-sound navigation model that structures the whole site
 - Shot the on-location studio photography that became the site's homepage

[Live at: plastify.webflow.io](#)

Philo

2024 | team of 6

- Service design project for personalised cultural experiences, built around an AI guide. Framed the problem first: visitors overwhelmed by generic, rigid museum paths.
- Ran quantitative and qualitative research (291 survey responses plus field interviews)
 - Built personas and journey maps
 - Translated findings into the app UX and interface.

Education

Politecnico di Milano

2023 - 2026

BSc Communication Design

Visual and web design, with coursework in interaction design, service design and creative coding
Final grade: 110/110

Università di Trento

2019 - 2022

Environmental Engineering studies (redirected to design)

Systems analysis, data handling and technical drawing

Skills

UX Research

Quantitative/Qualitative research, Personas, audience clustering, competitor benchmarking, Experience mapping

UX/UI

Sketching, Wireframing, Design system, AI , Advance Prototyping

Web

Responsive design, front-end build, CMS integration

Brand & visual

Identity systems, brand manuals, editorial design, art direction

Photo & video

Photography and video production, drone footage (DJI)

Physical prototyping

Electronics, 3D modelling, 3D printing

My stack

UX/UI

Figma, Webflow, Wordpress, Claude Design

Graphic & motion

Suite Adobe (Ai, Ps, Id, Pr, Lr), Canva

Front-end & prototyping

React, TypeScript, JavaScript, HTML, CSS, p5.js, C++ (Arduino), Python

Modelling

Spline, FreeCAD

Other

FigJam, Miro, Google Analytics, Microsoft 365

Languages

Italian | Mother Tongue

English | C1

IELTS 7.0
Speaking, writing: Fluent
I read and study my field in English daily, and I've studied and worked in international settings, including a photography programme in Iceland.
