

Emma Troni

Visual designer, focused on UI/UX and web design

Based in Milan, I design interfaces and build them as a 'nerdy' tech enthusiast, from Figma to code and connected hardware. A background in environmental engineering brings a structured, systems-first approach to interaction and information design.

Skills

UX Research

Quantitative/Qualitative research, Personas, audience clustering, competitor benchmarking, Experience mapping

UX/UI

Sketching, Wireframing, Design system, IA, Advance prototyping

Web

Responsive design, front-end build, CMS integration

Brand & visual

Identity systems, brand manuals, editorial design, art direction

Physical prototyping

Electronics, 3D modelling, 3D printing

My stack

UX/UI

Figma, Webflow, Wordpress

Graphic & motion

Suite Adobe (Ai, Ps, Id, Pr, Lr), Canva

Front-end & prototyping

React, TypeScript, JavaScript, HTML, CSS, p5.js, C++ (Arduino), Python

Modelling

Spline, FreeCAD

Other

FigJam, Miro, Google Analytics, Microsoft 365

Languages

Italian | Mother Tongue

English | C1

IELTS 7.0
Speaking, writing: Fluent

I read and study my field in English daily, and I've studied and worked in international settings, including a photography programme in Iceland.

French | A1

Currently studying

*According to Regulation (EU) 2016/679, I hereby express my consent to process and use my data provided in this CV and application for recruiting purposes.

Working experience

Seres srl ↗

Feb 2026 - Present

Freelance

Vaglio&Partners ↗

Sept 2024 - Feb 2025

Freelance

Seres srl ↗

Sept 2022 - Aug 2023

Freelance

Brand identity designer

- Full rebrand of a heritage-restoration firm: logo system, visual language, colour and type
- Authoring the brand manual and communication guidelines now being rolled out across all materials

Brand identity & web designer

- Designed and built the corporate website end to end, from information architecture to production
- Created a modular template system that let a non-design team produce on-brand material without a designer
- Delivered the brand identity: logo, palette and print collateral

Graphic designer

- Redesigned the brand identity and produced brochures, banners and event materials
- Designed the exhibition stand for MADE Expo Milan 2023 and the Ferrara International Exhibition of Cultural Heritage 2023
- Ran the advertising campaign end to end, including photo and video production

Meaningful projects

[Explore projects ↗](#)

Synchro

2026 | team of 5

Speculative system exploring time as geopolitical infrastructure.

- Team leader of the technical pipeline: Arduino device (circuit, enclosure, firmware), Wi-Fi data transmission, live ranking and the web app reading it
- Contributed to the B2B brand identity and campaign posters

Exhibited in Undeclared at dotdotdot, Milan — July 2026

Plastify

2025 | team of 4

Interactive site for producer and DJ Plastica, with Asian Fake records.

- Team leader of UI/UX design and front-end build (Figma → Webflow, custom code)
- Designed the object-to-sound navigation model that structures the whole site

In collaboration with the record label Asian Fake

Philo

2025 | team of 4

Service design project for personalised cultural experiences, built around an AI guide. Framed the problem first: visitors overwhelmed by generic, rigid museum paths.

Education

Politecnico di milano

2023 - 2026

BSc Communication Design

Visual and web design, with coursework in interaction design, service design and creative coding.

Final grade: 110/110

Università di Trento

2019 - 2022

BSc Environmental Engineering (redirected to design)

Systems analysis, data handling and technical drawing.
