

Emma Troni

Visual product designer focused on UI/UX and web design

From Venice (IT) - Open to relocate in Milan

I'm a visual product designer specialising in UX/UI, creating visual and interactive experiences. I have experience taking projects from user research to final design, and I'm currently building a design system for a training management web app. My engineering background informs my analytical, systems-thinking approach to design.

Skill

Information Design
Data visualization (static and interactive), Dataset cleaning & restructuring, Chart & encoding design, Statistics & quantitative data analysis

UX Research
Quantitative & qualitative research, User interviews, Personas & audience segmentation, Competitor analysis & benchmarking, Journey & experience mapping

UX/UI Design
Sketching & ideation, Wireframing, Information architecture, Design systems, Interactive prototyping, Usability testing

Web Design
Responsive web design, CMS implementation, Creative coding (p5.js)

Brand & Visual
Visual identity systems, Brand guidelines, Editorial design, Art direction

Content Production
Photography, Video production, Drone footage

Tools

UX/UI & Product Design
Figma, FigJam, Webflow, Framer

Visual & Motion Design
Adobe Illustrator, Photoshop, InDesign, Lightroom, Premiere Pro, After Effects, Figma Motion, Canva

Front-end Development & Creative Coding
JavaScript, HTML/CSS, p5.js, React, TypeScript, Python, Arduino (C++)

AI tools
Claude (design-to-code prototyping, code review), Nano Banana, Adobe Firefly (visuals, video)

3D & Prototyping
Spline, FreeCAD

Collaboration & Productivity
Miro, Microsoft 365 (Word, Excel, PowerPoint)

Languages

Italian | Mother Tongue

English | C1
IELTS 7.0
Speaking, writing: Fluent

Experience

Vaglio&Partners ↗
Sept 2026 - Present
Freelance

Product designer
- Building a design system for a training-management web app, to be integrated into the existing product
- Developing accessible design system components and tokens (WCAG 2.2 AA) for dashboards, admin panels and monitoring tools

Seres srl ↗
Feb 2026 - Aug 2026
Freelance

Brand identity designer
- Full rebrand of a heritage-restoration firm: logo system, brand manual, communication guidelines

Vaglio&Partners ↗
Sept 2024 - Feb 2025
Freelance

Brand identity & web designer
- Designed and developed the corporate website end-to-end, from UI design, information architecture to production (React, Vite, TypeScript).
- Delivered the brand identity: logo, palette and print collateral

Projects

Explore projects ↗

Synchro ↗
2026 | team of 5

Speculative system exploring time as geopolitical infrastructure.
- Designed the interaction flow of the device and companion web app; technical lead on firmware and data pipeline. Designed the B2B brand identity and campaign materials: brochures, banners and event communication assets.
- More than 200 people visited our stand at the Undeclared exhibition (Dotdotdot, Milan, July 2026), and 83 valid sessions were completed on the device

Exhibited in Undeclared at Dotdotdot, Milan (July 2026) ↗

Plastify ↗
2025 | team of 4

Interactive site for producer and DJ Plastica, with Asian Fake Records
- UI/UX design and front-end build, Figma to Webflow with CMS and custom code
- Designed and developed the object-to-sound navigation model that structures the whole site
- Shot the on-location studio photography that became the site's homepage

Live website at: plastify.webflow.io ↗

Philo ↗
2024 | team of 6

Service design project for personalised cultural experiences, built around an AI guide
- Ran quantitative and qualitative research: 291 survey responses plus field interviews
- Built personas, audience clusters and journey maps
- Designed the end-to-end app UX: information architecture, user flows, wireframes and final interface

Education

Politecnico di Milano
Sept 2023 - July 2026

BSc Communication Design
Coursework: product and UX/UI design, service design and creative coding
Final grade: 110/110

Università di Trento
Sept 2019 - Aug 2022

Environmental Engineering studies
Coursework: statistics, algorithms and programming, systems analysis and quantitative data handling
